SCORP1011

Scorpion point smoke detector tester for hard-to-access detectors with access point

General

Scorpion is a solution for testing hard-to-access detectors. It ensures all smoke detectors can be tested at any time – regardless of location.

SCORP1011

The SCORP1011 combines a SCORP1001, a Scorpion test head with mounting bracket and a SCORP25 access point into a single convenient package.

SCORP1001

The SCORP1001, is a Scorpion test head and mounting bracket for use with point type smoke detectors.

SCORP25

The SCORP25 is a wall mounted access point installed in a convenient location. Once a portable Scorpion controller (SCORP8000) is connected, testing via an installed Scorpion head unit (SCORP1011) can be carried out.

Details

- Universal design, suits all point type smoke detectors
- Can be retro fitted or fitted at time of install
- Ideal for lift shafts, ceiling voids, secure areas
- Clearing function enables rapid reset and reduces re-alarms
- The Scorpion head is permanently wired next to detector, but allows the test to be run from convenient, safe location.
- The SCORP25 access point allows quick connection to the SCORP7000 hand held controller
- COMPLIANT: Ensures all detectors can be tested as required by standards
- SIMPLE: Easily test detectors in sensitive or inaccessible areas
- COST EFFECTIVE: No need for additional access equipment or third party personnel

SCORP1011

Scorpion point smoke detector tester for hard-to-access detectors with access point

Technical specifications

Electrical

Power supply type	Batteries
Operating voltage	7.2 VDC

Physical

Physical dimensions	155 x 54 x 34 mm (Lx W x H) (without nozzle)
Net weight	<200 g (without nozzle)
Colour	White

Environmental

Vandal proof	No
Operating temperature	0°C bis 60°C
Storage temperature	-20°C to +70°C
Relative humidity	0 to 95% non-condensing
Environment	Indoor
IP rating	IP20

Regulatory

Compliancy	CE, REACH, RoHS 3, WEEE
